OUR MISSION

Horizon Center is a school dedicated to the continual evolvement of the human spirit. We believe that every individual, by Divine Right, can be in touch with their Intuition (psychic abilities) and that these abilities are natural, fun, and a very real part of being human.

... to that end we offer classes in Intuitive Development, Clairvoyance, "Energy" Management, "Energy" Healings, Workshops and Special Events that inform, encourage and validate the human spirit.

What is a Healing?

As we search for integrity in our lives, we are looking to bring into alignment our physical, emotional, spiritual and mental realities. Part of the process of healing - in the sense of becoming whole - is one of recognizing what energy is ours, someone else's and what belongs in the past or future. As we walk through life engaging with others, we pick up energy from our environment, our family, our work and our friends. This energy may translate into a sense of worry, a feeling of tiredness, or a physical ailment; this energy may also translate into a sense of joy, a feeling of excitement and delight.

The tools taught at the Horizon Center help each of us recognize energy patterns in our lives, those that may be supportive and those that may be non-supportive. With these tools, you learn ways to clear your space and make choices that support you.

The Tuesday night healing sessions are 10 to 15 minute interactions with one of the graduates or students of the program, who will balance the energy centers of your body and aura. Many people feel more comfortable, centered and calmer following a healing.

What is a Reading?

A clairvoyant reading communicates who you are as a spiritual being and what you came to do this lifetime. Clairvoyants communicate this information to you by translating symbols, colors, and mental image pictures they see in the layers of your aura (the energy field around your body).

Your aura reflects your spiritual growth and the life experience you have chosen to create and learn from. While a reading will not tell you what to do with your life, it validates what you have already accomplished and helps you see that you are the creator of your life by your choices.

The reading itself helps you clear energy and make way for your next steps as you choose to move forward on your path. To that extent, a reading can be a healing.
