## Greetings From the Director!

**JoAnn Wilson**  
**Atlanta Director**

Every once in a while I am able to take off my "Director's Hat" at Horizon Center for Intuitive Awareness. Such was the case at one of the Spiritual Communication sessions with Yvonne O'Brien where you receive communication with those who have "crossed over".

Though we were a little over time, Yvonne invited me to receive some communication too. The others in the session encouraged me as well and waited patiently during my spiritual communication.

My Mother appeared. A very loving person, she placed both hands on my shoulders and I could feel her loving energy washing over me. As Yvonne continued I could feel my Mom's love for me and our family continuing with increased intensity. It felt like every cell of my body was vibrating with the energy of unconditional love. It was to be a beautiful end to an evening that was already filled with appreciation from many students and participants.

I reached home and was "glowing" in this wonderful energy of unconditional love. I shared with my sister our mom's words of love for us and slept very well that night.

The next day I received three unexpected phone calls. The first was from a graduate who just wanted to share how much she "loved" me and how much she enjoyed the

event with Yvonne. Last evening's communication had been spectacular for her as well. I received a second call a few hours later. It was from a young friend in San Jose, California. I had not seen her in years and she and her family were going through many challenges. She called to tell me she was thinking of me and "loved" me and asked for some motherly advice. Her own Mother had crossed over a couple of years earlier. No doubt she felt the wave of love that had started the night before in Sandy Springs, GA.

Later that evening I received a third unexpected call. This was from a long time business associate that had become a good friend over the years. She lived in San Diego, had also been having a tough time and was on the verge of being homeless when I reminded her how powerful she truly was. She called to give me an update. She had found a place to stay and got the job she wanted and just had to call and tell me how much she "loved" me. I was clearly attracting that which I was vibrating; The "Law of Attraction" in action.

I invite you to have your own experience at Horizon Center and put the Law of Attraction to work for you. Whether

## Tool Time Stories from Students and Teachers

by Nadine Kelley

Last October, in culmination of 75 hours of instruction, I was scheduled to take a state licensing exam. Immediately upon arriving at the testing facility I encountered a female who seemed visibly upset. She was pacing in the small lobby where we had to wait to begin the testing process in which each person entered a small office outside of the testing area to have their identification verified. She entered the office ahead of me and I could hear the supervisor talking to her and calming her. I didn't hear exactly what her problem was but it

*"I sealed myself inside a bubble and put up protection roses..."*

was definitely unnerving her. After I finished my visit to the office I was escorted into the testing room. We all had to sit in cubicles and waited until everyone was seated to begin the timed testing. I was seated in the cubicle next to her.

Now I was ready for this test, I had spent hours doing the cram exam online, had passed every section with a greater than 90% success rate so I was psyched to start. I was feeling good... for about the first 10 minutes, after that, I started looking at the questions and feeling TOTALLY inept, I could not even guess at the correct answer. It was then that I realized that the girl next to me, was absolutely freaking out. Once I realized that, I sealed myself inside a bubble and put up protection roses. I felt calm and clear headed. What a difference! Within 10 minutes of that, the girl next to me walked out, visibly upset. I managed to finish the test - for which we were given 4 hours to complete - within 1 hour and 20 minutes. I bet I don't need to tell you that I scored well above the minimum 75% that was needed to pass it.

## A Spiritual Awareness Center

5549 Roswell Road, Atlanta, GA 30342 - 404.497.1700

### Our Mission:

Horizon Healing Center is a spiritual awareness center, offering a comfortable environment in which to take the next step on your path to align body, mind and spirit. We teach classes and workshops about energy, healing, intuition and clairvoyance, providing you with pragmatic tools for your own growth and development as spirit in this lifetime.

### Greetings from the Director - JoAnn Wilson, Atlanta Director

Hello,

I was recently thinking about how one chooses to integrate a truly "spiritual Life" with physical reality. My thoughts turned to a friend who makes it look so simple. She is a partner in a very successful business, works from home, takes music and art classes, creates and teaches classes, is involved with a number of women's groups, makes personal time for family and friends, and so on. She appears to be at ease with life. There are many who are this busy but lack the "ease".

What's the difference? When I take a psychic look I note that she is amused, neutral, in her space, centered, grounded and has her certainty. She uses her psychic tools on a daily (dare I say Hourly) basis. By practicing grounding, running earth and cosmic energy, being centered, in her own space, and a body of glass, she is a reminder that if we use our psychic tools "they work."

If you sometimes find yourself irritated, frustrated, frazzled, drained, defensive, over-

whelmed, and judgmental or any other uncomfortable adjective remember you can always include ease and peace. It is a choice you make. The energy tools help make that choice easier, and the nice thing is they are only a thought away.

## Tool Time Stories from Students and Teachers

by Karen Metts

On January 4, I was scheduled to take a state licensing exam. After I checked in, the test supervisor opened the door to the test area, sent me in, and closed the door behind me. I was immediately confronted by a heavy, dark energy, and a feeling of hopelessness and despair. I felt the panic start to rise. Because of the tools from Horizon, I immediately recognized that the energy I was feeling was not mine. I immediately grounded myself and put up protection roses. After I felt adequately grounded and protected, I adjusted the energy in my testing cubical, and finally, the room.

*“I adjusted the energy in my testing cubical...”*

About half way through the test, I felt some doubts start to creep in again. I stopped the test, regrouped, resecured my space, ran energy, and focused on being in the center of my head. I calmly reminded myself that I had studied and I knew the material; all I needed to do was to select the right answers. When I resumed the test, I experienced unbelievable clarity, and the answers almost jumped off the computer screen for me. As I left the testing area, I would have guessed that I had scored around 80-85%. However, my final score was 95.4!

Even though I had spent hours and hours studying and preparing for the exam, I'm not sure that I could have scored the 75% required to pass the test without the tools that I learned at Horizon. The tools helped me to separate the energy of the room and the other candidates from my own, and to eventually raise the energy level of the room. I like believing that changing the energy in the room helped some other test candidates do their best as well.
